FEB 05 2004

Dear Mr. Dorman:

I am writing to you and your staff as the past president of the Doe Valley Utility Company. I am very upset about the recent actions taken by the POA Board of Directors against the Utility Company. It seems their actions were planned to stop the Public Hearing and further delay our progress to build our water treatment plant. All the POA Board members who enacted this action against the Utility Company were not elected by popular vote but by one Developers vote. Now, Ms. Keim, the developer, controls both the buying and selling of water to the Utility Co. and to the customers. The Intervention that she has with the PSC is not about any of the current issues, but about her not wanting to pay her share of the cost and for the availability fees, which have been, billed her for the last two years. Ms. Keim, being a resident of Florida, views her interests in our community only as a financial investment.

In reading Kentucky Statutes concerning public utilities, it seems that a replacement of Utility Board members is subject to approval by the PSC prior to action taking place. I do not see where a formal request to remove the previous board was ever placed before the Commission.

In conclusion, I request that these actions be investigated and, if found improper, then reversed. As you are well aware, it is the Community's overwhelming desire to expand our own treatment facility and maintain Doe Valley Lake as our raw water source. I fear that the improper actions by the DVPOA Board have placed our community's priorities and desires in serious jeopardy.

Thank you.

Sincerely,

Gerry Lynn
